

Aaron C. Edmiston

New York, NY | +1 (562) 965-9778 | aaroncedmistondev@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-stack software engineer with 4 years of experience building high-quality, user-focused MVPs and scalable solutions in startup and corporate environments. Proficient in modern web technologies, including *React*, *Next.js*, *TypeScript*, *GraphQL*, and *Node.js* with a track record of owning major product initiatives and collaborating cross-functionally to deliver impactful results. Eager to apply problem-solving, ideation, and autonomy to build world-class products.

RELEVANT SKILLS

Front End: [TypeScript](#) ^{3yrs}, [React](#) ^{4yrs}, [JavaScript](#) ^{5yrs}, [GraphQL](#) ^{3yrs}, [Relay](#) ^{2yrs}, [Redux](#) ^{2yrs}, [Jest](#) ^{2yrs}, [Next](#) ^{1yr}

Back End & Databases: [Node](#) ^{4yrs}, [MySQL](#) ^{2yrs}, [DynamoDB](#) ^{1yr}, [AWS](#) ^{1yr}, [Docker](#) ^{1yr}

Other Tools: [styled-components](#) ^{3yrs}, [Tailwind](#) ^{1yr}, [Storybook](#) ^{3yrs}, [Jira](#) ^{3yrs}, [Vercel](#) ^{1yr}, [Formik](#) ^{2yrs}

KEY WORK EXPERIENCE

Rotaready | Full-Stack Software Engineer | *New York, NY & London, UK* | 06/22 - Present

- Spearheaded the development of the Time and Attendance Kiosk app using Next.js, enabling cost-effective employee time tracking, and reducing startup costs by 5%.
- Enhanced the Client Resource Management product with advanced search functionality and manual updates, expediting new customer onboarding and optimizing workflows for operations teams.
- Designed and launched critical features including a new dashboard, events calendar, HR tables, and rota editor, boosting user retention by 25% and nearly tripling the client base.
- Led the migration of the front-end codebase to TypeScript, streamlining 8,000+ lines of code, reducing bugs, and accelerating development cycles by 8%.
- Contributed to a 165% ARR growth post-acquisition by delivering impactful software solutions and onboarding five new engineers, nearly doubling team size.

Skills used: [React](#), [Redux](#), [GraphQL](#), [TypeScript](#), [Node](#), [JavaScript](#), [Git](#), [Zeplin](#), [Jira](#), [MySQL](#), [DynamoDB](#), [Docker](#), [Jest](#)

Absolute Magnitude | Full-Stack Software Developer | *New York, NY* | 10/21 - 07/22

- Delivered 5+ high-quality client solutions in under 10 months for a leading marketing agency, achieving a 100% client satisfaction rate.
- Led a small team of developers and designers to deliver 5 major React-based projects on time, receiving commendations for exceptional communication and technical leadership.

Skills used: [React](#), [Node](#), [JavaScript](#), [Git](#), [AWS](#), [Figma](#), [PHP](#), [WordPress](#)

Nomader | Full-Stack Software Developer | *London, UK & New York, NY* | 06/21 - Present

- Conceptualized, developed, and deployed a travel and booking platform leveraging Amadeus' open-source API, improving booking speeds by 5%.

Skills used: [React](#), [Node](#), [Express](#), [REST APIs](#), [Axios](#), [MySQL](#), [Heroku](#), [Web Hosting](#), [JavaScript](#), [Figma](#), [Amadeus](#), [Vercel](#)

EDUCATION

Full-Stack Software Engineering | [The Jump Digital School](#) | London, UK

- Won an 8-hour hackathon by building [CubClub](#), a web app designed to make children's learning interactive and fun.
- Curated a code-pairing supplemental program using an algorithm to pair students with a new student each week.

International Business | **Universidad de Belgrano** | Buenos Aires, Argentina

- Completed a six-month comprehensive student exchange program with a focus on international business and Argentine culture and civilization
- Advanced Spanish and conversational Portuguese

International Business | **Universidad de Alicante** | Alicante, Spain

- Completed a 4-month exchange program with a focus on international business and Spanish culture
- Advanced Spanish

BA International Business & BA Business Marketing | **California State University, Long Beach** | California, US

- Dean's Honor List (GPA > 3.5/4.0)
- Minor in Spanish

LEISURE ACTIVITIES

- **Developer Engagement:** Active participant in [livecode.nyc](#), fostering technical discussions and sharing knowledge with peers. Regular attendee of React meetups to stay updated on industry trends.
- **Community & Mentorship:** Mentor and mentee in the Meet a Mentor (MaM) program, supporting professional growth in the tech community.
- **Travel & Exploration:** Passionate traveler who has visited over 60 countries. Developed adaptability and remote collaboration skills as a digital nomad (2019–2020).
- **Scuba Diving:** Avid scuba diver with experience exploring various underwater ecosystems, including the Great Barrier Reef, Montenegro, the Caribbean, and Bermuda.
- **Event Curation:** Curate events (e.g., music, art, dance) that unite diverse communities and foster creative expression.
